

What is HDAVI Control

HDAVI Control (or HDAVI-1 as it is sometimes referred to), provides basic additional control via the HDMI Lead, similar to the Q-Link functions of a Scart Connection.

Easy Playback

Automatic Input switching-When the connected Panasonic equipment is operated, input mode is switched automatically. When it is stopped operating, input mode is returned.

Power On Link

When the connected Panasonic equipment starts playback or direct navigator / function menu for the equipment is activated, the TV is automatically turned on. (Only when TV is in Standby mode.)

Power Off Link When TV is set to Standby mode, the connected Panasonic equipment is also automatically set to Standby. • This function will work even if the TV enters standby mode automatically by Off Timer function or auto power standby function
